Homework 0

Please note that this sheet is for your preparation only. You do not create any results that need to be submitted for grading, but your results are needed to work on the next homework assignments.

General Notes

- If you encounter difficulties, you SHOULD[1] ask the teaching assistants in the consultation hour.
- To solve the homework, you SHOULD form teams of 3 people.
- Your team size MUST NOT exceed 3 people.
- You MUST submit your homework in ILIAS.
- You are free to choose whether you write your solutions in German or in English.
- Your submission MUST include all team member's names and matriculation numbers.
- If you do not adhere to these rules, you risk loosing points.

Problem 1: Group into Teams

To work on the following homework sheets, you should group into teams of three people.

Problem 2: Virtual Machine

In ILIAS, you find a virtual machine along with installation instructions. Install this virtual machine and familiarize yourself with it. If you encounter any technical problems, solve them now! You can also ask the teaching assistants for help in the consultation hour on next Monday. The virtual machine will play an important role in the next homework assignments.

Problem 3: Catching up

Read up on the concepts discussed in Slide Set 01 that you do not know yet.

---

[1]SHOULD, MUST, and MUST NOT are used as defined in RFC2119.
